going the extra mile

All You Need From Turbo To Tailpipe

## This Thanksgiving - Make Sure Only the Turkey's Stuffed

Ever seen a "stuffed" exhaust system? Well, combine worn sensors and DEF components with cold weather, and you've got a real winter wonderland of crystallized DEF in your pipes. Don't risk downtime before the holidays – stock up on NO<sub>x</sub> sensors and DEF pumps, injectors & filters this Black Friday and keep fleets rolling.

### The Leading NO<sub>x</sub>-sensor in the Aftermarket

Smarter programming for excellent compatibility, enhanced sensing accuracy and a tougher, more durable design.

### Full Range coverage for the 7 biggest brands - and more

Our growing range of Mechatronics covers more than 600 different market references for North American trucks, buses and Off-Road applications.

### All tested and validated to industry benchmarks

Meeting strict requirements to performance, reliability and consistency, approved by Dinex OE-endorsed test team.
