

ENVIRONMENTAL POLICY

Dinex Emission aims to be one of the world's leading global companies in manufacturing exhaust and emission control systems and components. We are committed to advancing sustainable technologies that minimize environmental impact while supporting our customers' needs.

With this regard, Dinex Emission is dedicated to protecting the local and global environment. To minimize environmental impacts from our activities, products, and services, we are committed to;

- Compliance: Fulfil all applicable legal requirements and other obligations related to our environmental aspects.
- Integration: Incorporate environmental considerations into all business strategies, decision-making processes, and initiatives.
- Leadership: Ensure that protection of the environment is a fundamental part of our culture, led by top management and embraced by all employees.
- Pollution Prevention: Prevent pollution, reduce waste, and minimize the consumption of resources through responsible operations and innovation.
- Global Impact: Consider the wider global impact of our activities, including those of our suppliers, customers, and other stakeholders.
- Climate Change: Seek the opportunities to improve operations to minimize our impact on climate change and review significant climate-related risks and opportunities related to business.
- Awareness & Training: Educate, train, and motivate employees to perform tasks in an environmentally responsible manner and promote continuous professional development aligned with sustainability goals.
- Supply Chain Engagement: Encourage and support environmental protection among suppliers, subcontractors, and partners.
- Sustainable Innovation: Investigate and promote feasible solutions to reduce environmental impact throughout the product life cycle.
- Biodiversity & Ecology: Actively encourage and enhance biodiversity, ecological protection, and sustainable practices across our operations.

Dinex Emission is also committed to the continual improvement of its environmental performance through monitoring, evaluation, and proactive initiatives. This policy will be communicated to all employees, contractors, and suppliers, and will be made available to the interested parties through selected media.
